

Students verify that a point lies on a line, given an equation of the line. Students are able to derive linear equations. 1A7.0

170. Which of the following points lies on the line  $y = x$ ?

- A  $(-4, -4)$
- B  $(-4, 4)$
- C  $(4, -4)$
- D  $(-4, 0)$

171. Which of the following points lies on the line  $4x + 5y = 20$ ?

- A  $(0, 4)$
- B  $(0, 5)$
- C  $(4, 5)$
- D  $(5, 4)$
